

# Crystal Investigation Project Checklist

## Elements of your project

- At least one crystal that shows sharpness of edges, smoothness of faces and has good clarity (transparency).
- Journal or logbook including:
  - The investigation question or hypothesis
  - Details of equipment and method used
  - Dates and times of carrying out the procedures
  - Observations each time the crystals are inspected
  - A discussion of any problems encountered
  - A summary of your findings

## Online submission

- Cover sheet (given to you by your coordinator)
- Logbook/Journal (PDF or Word document)

**Project submitted online:** between Monday 21 July - Sunday 27 July

## Onsite delivery

- Attach your Identification Label to the front of your padded Post Pak envelope containing your crystal(s) (given to you by your coordinator)
- Ensure the the press-seal bag / container with your crystal is labelled with your ID number
- Hard copy of your logbook

**Project delivered onsite:** Wednesday 30 July
